20 September 2016, London

ISG activities, events & initiatives 2016

We have added 5 new members to our committee (total of 12) and now have 4 doctorates on the ISG committee!

The committee colleagues, Colin Pearson and Christopher East are experimenting with video and live broadcasting of events. Most of our past events are available on video via our web pages.

One of the committee colleagues, Joseph Onibokum, is about to embark on an ISG Blog for the BCS web site and is liaising with BCS HQ. Contributions will be open to all BCS members.

We continue to liaise with Nominet who have asked our advice on focusing on member engagement as part of benchmarking they are carrying out with member organisations.

Howard Gerlis I appeared on the BBC news, representing the BCS, when the TalkTalk hack occurred in November.

Howard Gerlis is also on the BCS PPAB Communications Community of Expertise group. The group is currently reviewing the latest Ofcom consultation about Openreach, this is now on the BCS Policy Hub.

The committee is also active in other BCS areas. Colin Pearson, our treasurer, is also the treasurer for the Consultancy SG and Law SG. Jennifer Dean, on our committee, is also Chair of the Law SG. Full biographies of our committee are on our BCS web pages.

The ISG are working with Ian Borthwick, Head of Publishing, BCS Learning & Development Limited, in delivering a survey to all ISG members to gauge what type of topics the BCS should be aiming at for their publishing plans.

Howard Gerlis, FBCS, CITP 20th September 2016
