# Global Health

*'If the UK is to protect the health of its population, harness the benefits of globalisation and maximise its contribution to global health, it needs to have a clear, coherent and coordinated approach to the many issues that influence global health.'*

Sir Liam Donaldson 2007

# World Health Assembly resolution on eHealth May 2005

*' - that eHealth is the cost effective and secure use of information and communications technologies in support of health and health related fields, including healthcare services, health surveillance, health literature, and health education, knowledge and research.'*
