

CMA Annual Conference 2012 in Partnership with ICT KTN

“The Online Era – transforming the way we do business”

Wednesday 30th May 2012

BCS – 1st Floor, The Davidson Building, 5 Southampton Street, London WC2E 7HA

Getting direct answers to your questions about managing your business into further success in the online economy is the reason for you to attend the CMA Annual Conference. The conference is structured to offer attendees the chance to investigate available solutions, face to face, with people who have successfully made ‘online’ work for them.

Work with business users who have experienced implementation and return on investment, integrators who have brought together different products to offer a broader solution fit and innovative providers to aid you in fulfilling existing business objectives or settling plans for future directions.

There will be a keynote session on the topic of ICT enabling London 2012 at the start of the afternoon’s proceedings. It will comprise of three presentations that fit neatly with the way in which the conference theme is being addressed by Olympics Communications Service Providers. The BBC fits very neatly into this due to the extensive coverage that will take place during the first fully ‘Digital Olympics’. The BBC coverage could not be achieved without BT’s incredible infrastructure provision. The other major consideration is mobile coverage for all the smart phones, pads and devices that will be requiring both connectivity and efficient service by visitors to and citizens of this country.

Join us at our Central London venue, to discover and take effective, viable knowledge and contacts back to your business.
