## Introduction

This document is intended for our Education Centres and sets out the fees we will charge for our various qualifications and services.

Our aim is to have a pricing structure and associated invoice arrangements that are:

- fair and appropriate and provide value for money;
- clear and transparent, with no hidden costs or details.

The fees listed below are in respect of potential purchases in England and are correct at the date shown at the bottom of this statement. BCS is committed to ensuring the fee details are updated every time a new qualification is offered and/or if fees have been altered and will be made available to our centres at the earliest opportunity. Details of fees for potential purchases outside England are available on request.

Details of the qualifications we offer (e.g. their specifications) can be obtained via the Approved Centre Forum along with Centre guidance materials that outline some of the processes below.

Pricing is effective from 31 August 2023 (all prices exclude VAT). HEQ prices are for exams taken from 1 October 2023.

## Review Arrangements

We will review this document and its associated procedures annually as part of our self-evaluation arrangements and/or in response to customer or regulatory feedback and any trends that may emerge in the types of queries we may have received.

If you would like to feed back any views or have a query in relation to any aspect of our fees or invoicing arrangements, please contact us via the details provided at the end of this document.
