Additional Comments:

I am familiar with all the projects ██████ has worked on (and have detailed knowledge of many) in the period I have known him and can confirm his Personal Statement to be an accurate reflection of his activities and level of operation within the business. ██████ has extensive experience across the IT project lifecycle, working with Customers to translate business requirements through solution selection, design, development, testing, implementation and support. He has been, and remains, a strong advocate for the adoption of industry best practices within the business.
