

ECDL

BCS LEVEL 1, 2 AND 3 ECDL QUALIFICATIONS

Digital skills to get ahead

A man and a woman are working together at a computer in a modern office setting. The man, wearing a green shirt, is leaning over the desk, pointing at the screen. The woman, wearing a blue denim shirt over a yellow top, is sitting at the desk and looking at the screen. The background features large windows with a grid pattern, letting in bright light. A computer mouse is visible on the desk.

ECDL programmes have been delivered to over 15 million people, in 41 languages across 100 countries. Over 2 million people have taken ECDL in the UK since 1997.

Technology is changing the workplace at an ever-faster pace. Existing jobs are evolving and new ones are appearing. One thing is certain: digital skills are vital in the workforce.

Keeping pace with the latest technology used in your workplace can be a challenge. ECDL is the solution, helping learners advance their careers by expanding and updating digital skills.

Using a computer effectively is now an essential skill – More and more jobs demand digital skills. From office jobs to farmers, mechanics or doctors, technology is changing the workplace. But employees are too often being left behind, without the skills to take advantage of the opportunities that technology brings. An ECDL certified computer qualification makes you more attractive to employers.

So how do you gain or demonstrate the best computer skills?

The answer is ECDL (European Computer Driving Licence)

ECDL is the world's number one IT user qualification – recognised and valued in workplaces around the globe as proof of competence in IT. It's **tried, tested** and **trusted** and is the benchmark for digital literacy in educational systems around the globe.

Why should I study ECDL?

Effective IT user skills help you unlock the potential of your computer and the programmes you use. You'll discover new, faster ways to communicate, solve tasks and access information.

- Prove your IT skills which can help you find a job or progress your career.
- Build your confidence in using computers.
- Improve your study skills, efficiency and productivity

ECDL is designed for people of all ages and skill levels and offers a number of routes for training so you can attain the qualification at your own pace through flexible learning or at a centre, even while in full time employment

How do I take an ECDL qualification?

BCS, The Chartered Institute for IT, works in partnership with colleges, universities and training providers across the UK to ensure that there are local centres where you can undertake face to face training or access a range of interactive courseware to guide you through what you need to learn. There are also electronic and book-based training material available to support your learning.

Mapped to the national standards.

ECDL qualifications are government regulated and mapped to the national occupation standards across the UK. This provides an independent sign that they meet the requirements for quality, educational system work-based funding.

Become a BCS approved centre

BCS, The Chartered Institute for IT, is the global awarding body for IT. We are committed to raising standards of digital literacy within society so that everyone is able to benefit from developing technology. Partner with us to access exclusive resources and support for your customers and your business.
