Nominations for BCS Lovelace Medal for Computing Research offline form

Thank you for helping us to highlight and appreciate extraordinary people and their exceptional contributions to computing.

This is an offline version of the online nomination form for the BCS Lovelace Medal for Computing Research. Please use this version to prepare your answers before completing the online version.

Nominations are accepted from anyone, anywhere in the world but it is expected that nominees are academic, industry or education professionals who have a direct connection with the UK.

There are no career stage restrictions or expectations with this prize, the emphasis is on impact. Nominators and nominees do not need to be BCS members.

Nominations for the 2024 Lovelace Medal will close at 23:59 on Monday 13th May 2024.

Further information on the BCS Lovelace Medal, a guide for nominators and an offline copy of the nomination form are available here. https://www.bcs.org/events/awards-and-competitions/bcs-lovelace-medal/

* Required

How we use your data

By submitting this application form you are consenting to BCS, The Chartered Institute for IT, processing your data in accordance with our Data Privacy Policy which can be found here. https://www.bcs.org/legal-and-privacy-notices/data-privacy-notice/

The information provided will be used solely for the purpose of evaluating and processing your nomination for this award. This includes sharing your nomination with our selection panel.

1. Please confirm you are happy with us processing your nomination and using your data in this way. *
   
   [ ] Yes
   
   [ ] No

2. First name *

   

3. Last name *

   

4. Email address *

5. Are you a BCS Member? *
   - Yes
   - No

6. BCS Membership number if known

7. First name of nominee *

8. Last name of nominee *

9. Email address of nominee *

10. Please provide a short citation (up to 60 words) to briefly describe what the nominee should be awarded for. Should your nominee be successful, this citation may be used in public communications. *

   The number must equal 60

11. Please describe the contributions your nominee has made to computing research, in academia or industry (up to 250 words). You may wish to focus on the nominee’s most significant contributions. Your response should address the selection criteria as described here https://www.bcs.org/events/awards-and-competitions/bcs-lovelace-medal/. Our guidance for nominators found here https://www.bcs.org/events/awards-and-competitions/bcs-lovelace-medal/ has additional advice on making a good quality nomination. *
12. Please describe the impact of your nominee’s contributions to computing research (up to 250 words). How has their work advanced knowledge, furthered discovery, or accelerated innovation? What is the scope and scale of their impact? Your response should address the selection criteria as described here [link]. Our guidance for nominators, found here [link], has additional advice on making a good quality nomination.

13. What, in your view, makes your nominee’s contribution exceptional (up to 250 words)? How is their work remarkable or differentiated? In what ways do their efforts stand out from the crowd? Your response should address the selection criteria as described here [link]. Our guidance for nominators, found here [link], has additional advice on making a good quality nomination.

14. Please describe how your nominee has contributed more broadly to the computing community, and to making IT good for society (up to 150 words). The purpose of this section is to capture additional contributions by nominees, beyond their computing research contributions, which have a focus on giving something back to the community. Please don’t repeat your nominee’s contributions as mentioned above, use the space to provide us with new information.

15. Please provide an up-to-date LinkedIn or detailed biography for the nominee, including a summary of their education and career, and a maximum of 10 relevant publications or patents.

16. Please provide up to 5 links to supporting evidence, each with a sentence to explain its significance.
