December 2008

IT Can Help
British Computer Society Group helps disabled people get more from life with the aid of Information Technology

Special points of interest:

- LiveNet Business Plan
- Disability Action
- LiveNet Training
- EverybodyOnline

LiveNet Funding Progress

Managing Director of the Project Team titled ‘IT Can Help’, declared funding through Government Lottery Fund’s Live & Learn programme to decisive: A Project proposal and business plan for the LiveNet project. The business plan has now been prepared and submitted, a decision about funding is expected in April 2009.

The LiveNet project aims to empower disabled individuals with learning disabilities, particularly technical skill, but rather with giving instruction and encourage visit.

A typical visit proceeds, it is a capability for IT Can Help to enable disabled individuals to be seen as a whole person to be assisted with some instruction and encouraged in the use of information technology.

Assuming the project proceeds, it is a capability for IT Can Help to enable disabled individuals to be seen as a whole person to be assisted with some instruction and encouraged in the use of information technology.

Joan, like many people, was wary of making a nuisance, despite assurances to the contrary.

Joan, like many people, was wary of making a nuisance, despite assurances to the contrary.

IT Can Help was founded in 1994 as a programme of the British Computer Society. It offers free computer support to disabled people.

IT Can Help is pleased to support people with dyslexia and other reading difficulties.

The following is an account of IT support for a lady in Lisburn, a referral from Age Concern.
