

BCS Consultancy Specialist Group Secretary's Report, 8th September 2016

The Consultancy SG membership is down by 5% since last year but we still have a healthy number of new joiners, taking our membership to 3306 which includes a number of Affiliates, Associates and Students. We secured 11 Chartered Fellows as new members amongst a variety of other grades. About 9% of members are female, which seems low compared to the current percentage of females working in IS/IT related fields.

Of those who left, 39 were members for up to one year, and a further 118 for up to two years. We lost 32 who had been members of the SG for 12 years (possibly retired from BCS).
