

BCS Consultancy Specialist Group

Secretary's Report. September 2012

During 2012 we have embarked on a partnership with the Institute of Consulting London Branch for the joint staging of events. The 5 events run so far have been successful and very well attended.

Our activities to reach our membership outside London include the BCS Consultancy Group on LinkedIn. The growth in membership of the Linked In Group is slow but steady. However we need to encourage people to use it more. Of the last 20 requests to join, only 6 responded with their BCS membership number as required to join the group.
