

## Contact tracing app survey

This report was generated on 15/05/20. Overall 1716 respondents completed this questionnaire during the period 11-15 May 2020.

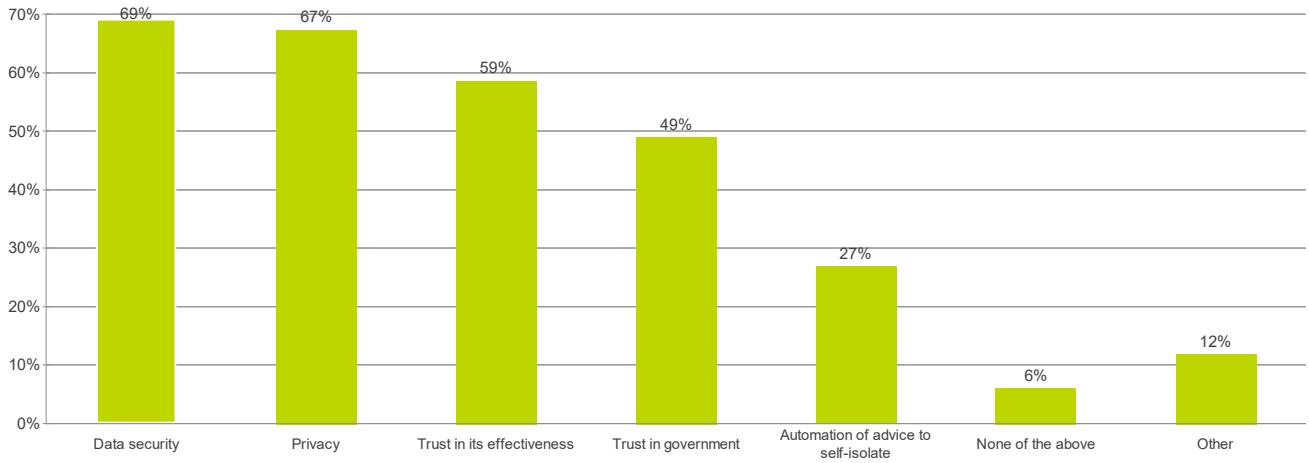

**In your professional opinion, will the NHS contact tracing app be an effective tool in containing Covid-19?**

**When it becomes available, are you planning to download the NHS contact tracing app?**

**What concerns you about downloading the app? (Please tick all that apply)**

**Which architecture would you favour in implementation of a contact tracing app?**
