Nottingham & Derby Branch

Combined Treasurer and Chairman statement

The branch held 11 events in 2014 – 2015 covering topics such as Open stack, Cloud Services, Artificial Intelligence, Agile etc...

Attendance varied depending on topics with Artificial Intelligence, NLP and Agile being some of the better attended events. Agile in particular was the most popular topic.

Budget for 2014/5 was £4206 and spend will be about £3000. The under spend is mainly due to speaker's expenses, I budget for all speakers to claim but, in fact, only a few do. Also we only seem to have one University prize rather than the three we budgeted. We are also slightly under budget on the room hire as I have to allow for any increase the Novotel might want. As we have to submit the budget request in March we have no idea what room hire charges might be for the following year but for the past year the Novotel kept their charges the same. This may not be the same next year but the budget is already set.

The final figures will be due out soon and it is for that reason we will be moving the following AGM to October to align better with other branches.

The budget for 2015/16 is set at £4206.

The committee puts in a lot of effort to organise and enable these events so I would like to thank the committee for all their hard work, which without them volunteering their time these events would not be possible.

In particular I would like to thank Tom for his work as Events Secretary. Tom has done a fantastic job of organising events for the past year.

The branch made "best student" awards to University of Nottingham and potentially Nottingham University. This is an annual prize which we hope to extend to Derby University next year.

HQ continues to produce useful material which can be accessed via the BCS website.

The branch hopes to hold a similar number of events next year and any suggestions or contacts for speakers for topics will be appreciated.

On a final note, the branch relies heavily on members volunteering their time for the benefits of all branch members. We would like members to become more involved so that we can improve the branch for the future. A number of positions are available in the committee and If you would like to become more involved then please contact the committee.
