

RITTech

CHAMPIONS

Your guide to becoming an RITTech Champion.

A warm welcome and congratulations again on achieving RITTech status. Whether you have just joined the RITTech register or have been RITTech for many years, it is testament to you for continuing your professional development.

Achieving RITTech status means a lot of things. Mainly that you are trusted, ethical and reliable. You are technical and competent within your role and you are validated against all of this by a professional standard through BCS – The Chartered Institute for IT. It also means you are raising professional standards in the IT and digital industries. And we can do it together.

What is an RITTech champion?

It's an RITTech advocate in its simplest form. We want to help others raise their own professional profiles whilst raising the awareness of RITTech throughout the industry at the same time. We want to build a group of RITTech's who are going that bit further, to help others and mentor them to raise their own standards and prove they can be a trusted professional like you.

Get started with our champion toolkit.

To get started, we've provided some useful info and resources to help you become an RITTech champion. We have outlined some of them here.

Follow our LinkedIn page.

Follow our RITTech LinkedIn community page and share it with your colleagues, the company you work for and your peers. www.linkedin.com/showcase/rittech

Share your own personal story.

We're looking for a good success story. Maybe you want to share your unique role or why you applied for RITTech? Are you working towards another standard and what would you say to others who are thinking of applying? Send us an email to: RITTech@bcs.uk and we will happily share your story on our **success story page** on the main BCS website.

Download the RITTech champion badge & add it to your email signature.

Cement your reputation as a trustworthy digital professional by adding the RITTech champion badge to your email signature. It shows you are validated and have benchmarked your skills against an industry-recognised standard.

Share our RITTech videos and getting started guide.

If you want to act as an RITTech champion, you might find it handy to download our 'Getting started guide' and share it with your peers and colleagues. It will help them with all the relevant FAQ's around the standard such as 'how to apply' so you can point them in the right direction. You can download the guide and see our videos on the RITTech champion landing page.

By doing all the above, we want to let you know that you will be helping us raise standards in the IT and digital industries. To benefit you, we will also be showcasing anyone who can show us what they've been doing as an RITTech champion. Again let us know by emailing us at: RITTech@bcs.uk
