BCS Digital Divide Specialist Group
Inclusive Design Principles… for the things we do:

- **Cultural humility and inclusive** – Enable continuous improvement through an and open, learning mindset

- **Aligned to need** – By actively listening to critically evaluate requirements for all we may then take the appropriate action(s) while rigorously monitoring and sharing the results

- **Accessible and Usable** – Our language, process, tools

- **Transparent and Timely** – In all our decision-making, communication priorities, roles, process including escalation and disagreements, tools

- **Responsive and supportive** – By providing constructive feedback/being the critical friend, we are proactive, offers to support/contribute to ideation AND delivery

- **Risk appetite –** we are bold

- **Sustainable** – Financially, environmentally and are conscious of our volunteers' capacity
