EXAMINERS' REPORT

IT & The Environment

Questions Report:

A1	Candidates scored good marks on this question, but answers lacked sufficient detail to score all the marks.
A2	Candidates scored good marks on this question, but answers lacked sufficient detail to score all the marks.
A3	<p>This question was poorly answered, with candidates seemingly knowing about remote sensing but unable to describe them in the detail required at this level.</p> <p>The description of how to use remote sensing in environmental situations was vague.</p>
B4	Candidates scored medium marks on this question, but answers lacked sufficient detail to score all the marks.
B5	This question was poorly answered, with candidates mixing up EU environmental legislation with EU Data Centre specific legislation.
