

Chartered IT Professional standard

The standard for Chartered IT Professionals is set and maintained by BCS, The Chartered Institute for IT.

To apply for registration as a Chartered IT Professional, individuals must be:

- employed using skills defined by BCS as within the scope of the IT profession*; and
- working in a complex role or multiple roles, requiring underpinning knowledge and competence.

**Exploiting IT for business benefit in any context demonstrated by using skills included in a recognised skills framework such as the Skills Framework for the Information Age (SFIA www.sfia.org.uk) or the European Competence Framework (e-CF www.ecompetences.eu/)*

To be registered as a Chartered IT Professional an individual must also:

- be a member of a professional body licenced by BCS to award Chartered IT Professional status and have agreed to abide by the body's code of conduct which is subject to disciplinary procedures; and
- undertake to maintain and develop your knowledge and skills in the IT profession by keeping a record of professional development.

CITP registration validates:

1. knowledge and experience gained through formal and informal education and training and the ability to apply fundamental principles in a wide and often unpredictable range of contexts;
2. the ability to perform an extensive range and variety of complex technical and/or professional work activities;
3. a breadth of knowledge of IT that has been evidenced through a method approved by BCS, that allows individuals to communicate and work with specialists across the IT profession;

Chartered IT Professional standard

4. the registrant's ability to understand and appreciate the relationship between their own discipline and wider customer/organisational requirements; and
5. the leadership qualities to influence and build appropriate and effective business relationships that promote collaboration between stakeholders who have diverse objectives.

Identification of a Chartered IT Professional

A Chartered IT Professional is entitled to use post-nominal letters 'CITP' as long as they:

- remain in membership of a professional body licenced to award CITP status and undertake to abide by a code of conduct enforceable through disciplinary procedures.

Chartered IT Professionals are listed on a register maintained by BCS.

Maintaining registration

To maintain their registration, a Chartered IT Professional is required to remain a member of a body licensed to award Chartered IT Professional status and to keep a record of continuous professional development.

Evidencing current competence

On award of CITP status a registrant is granted a Certificate of Current Competence that is valid for five years.

A Certificate of Current Competence may be renewed subject to submission of evidence of continuing employment and a record of continuous professional development that meets the *BCS policy for determining current competence for CITP status* that may be updated from time to time.

Chartered IT Professional standard

How to register

All applications for registration must be made to a body licensed by BCS, The Chartered Institute for IT, to award Chartered IT Professional status and enter registrants on to the register maintained and published by BCS.

Assessment

The competence will be assessed against the following criteria:

Autonomy

- it is expected that work is often self-initiated

A1 Works under broad direction

A2 Is fully responsible for meeting allocated technical and/or project/supervisory objectives

A3 Establishes milestones and has a significant role in the assignment of tasks and/or responsibilities

Influence

- leadership ability to achieve successful business benefit

B1 Influences organisation, customers, suppliers, partners and peers on the contribution of their own specialism

B2 Builds appropriate and effective business relationships

B3 Makes decisions that impact the success of assigned work, i.e. results, deadlines and budget

B4 Has significant influence over the allocation and management of resources appropriate to a given assignment.

Chartered IT Professional standard

Complexity

- the ability to succeed in roles that are multifaceted

- C1 Performs an extensive range and variety of complex technical and/or professional work activities
- C2 Undertakes work that requires the application of fundamental principles in a wide and often unpredictable range of contexts
- C3 Understands the relationship between their own specialism and the wider customer/organisational requirements

Business skills

- vision and appreciation of the overall context to achieve benefit from exploiting IT

- D1 Advises on the available standards, methods, tools and applications relevant to their own specialism and can make an appropriate choice from alternatives
- D2 Analyses, designs, plans, executes and evaluates work to time, cost and quality targets and takes all requirements into account when making proposals
- D3 Analyses requirements and advises on scope and options for continuous operational improvement
- D4 Assesses and evaluates risk
- D5 Demonstrates creativity, innovation and ethical thinking when applying a solution for the benefit of a customer/stakeholder
- D6 Communicates effectively, both formally and informally
- D7 Demonstrates leadership and facilitates collaboration between stakeholders who have diverse objectives
- D8 Maintains an awareness of developments in the industry; takes initiative to keep their skills up to date and mentors colleagues
